

Trance 3 (Easter)

Welcome friends. Soon it will be Easter time and it is a time of rebirth and renewal, and spring brings new growth and new living things to brighten up our day. As we come through the dark months and now we have sunshine. We watch the plants as they struggle through the earth to meet the sunshine. The colour they bring to our lives and the animals, And the new life that they bring, brings joy to our faces. For there is not much to rejoice at this given time, as we need peace in our land, but from times gone by it is still no longer, there is no peace, they still fight. We need peace for our children's sake, for new life and to bring new energy. We watch from afar as things unravel and it is not good to watch and witness. There must be more love and prayers given to mother earth and to this wonderful universe. We watch and wait and hope that things change, and that there are new dimensions and new waves of feelings and thoughts to change this generation. No more blood, no more fighting, more unity and peace. We must all share the healing and loving thoughts to our friends and family and to the places that need it the most. Sharing our love can help others shine. The sunshine brings smiles to faces, spread that healing ray. I bid you good evening.
